

SERB

No.	Title of Project	Principal Investigator	Year of start	Duration	Total Budget	Remarks
01	Technological interventions for prophylactic and therapeutic management of contagious caprine pleuropneumonia (CCPP) in pashmina goats	Dr. M. Iqbal Yattoo	2017-18	03 Years	35.00	
02	Evaluation of Vegetation, its Communities and Habitats for Developing Micro-Level Conservation and Management Strategies in Dachigam National Park, Jammu & Kashmir	Dr. Shalu Devi Thakur	2015-16	03 Years	29.00	
03	Phytochemical analysis, micropropagation and hypolipidemic, antidiabetic/ antihypertensive mode of action of indigenous crops of Kashmir region.	Dr. Omi Laila Majeed	2016-17	02 Years	19-20	
04	Linkage Disequilibrium based Association Mapping of Nutritionally Essential Elements in Common Bean (<i>Phaseolus vulgaris L.</i>): A step towards attaining nutritional security	Dr. Muslima Nazir	2016-17		19.20	
05	Proteome identification of binding partners interacting with alpha-I-syntropein (SNTAI) protein in human breast cell lines	Dr. Hina Bhat	2016-17		42.00	
06	Study on waterfall ecology, migratory patterns and disease monitoring in the wetlands of Kashmir valley	Dr. Khursheed Ahmad	2016-17		70.50	
07	Morphological and Molecular Evaluation of Apple (<i>Malus domestica Borkh</i>) for Scab Resistance: Towards Breeding Scab Free Apple Cultivars.	Mr. Jahangir A. Dar	2017-18	02 Years	19.20	
08	Ecology of Leopard (<i>Panther pardus</i>) in Kashmir Himalaya, India: Implications for mitigating human leopard conflict	Mr. Zaffar Rais Mir	2017-18	02 years	19.20	
09	Mining of scab resistance R-Genes from different cultivars of apple and introducing of scab resistance in commercially important varieties of apple grown in Kashmir valley through cis-geneies	Prof. Nazeer Ahmad	2017-18	03 Years	58.00	
10	Generation of a genetically stable live vaccine candidate against Infectious Bursal Disease Virus (IBDV) through mutagen driven lethal mutagenesis	Dr. Nadeem Shabir	2017-18	03 years	45.24
